

Search catalog

Search catalog API allows you to search the StockX catalog via freeform text, GTIN (UPC, EAN, ITF-14) or styleId. The output is a paginated list of products that match the search term provided in the API call.

Security > **api_key** and **jwt**

Request ▾

QUERY PARAMETERS

query
required

string [1 .. 100] characters

Specifies a keyword, GTIN (UPC, EAN, ITF-14) or styleId string to search for products

Examples:

Example 1

query=nike

Example 2

query=194817794556

pageNumber

integer <int32> >= 1

Requested page number. By default, the page number starts at 1.

Example: pageNumber=1

pageSize

integer <int32> [1 .. 50]

The number of products to return. By default, the page size starts at 1.

Example: pageSize=10

Responses ▾

200 Ok

RESPONSE SCHEMA: application/json
